## TOBACCO MARKET FOR DOVER.

(Dover News.)

It is possible that Dover will have a loose leaf tobacco market next season. One of the most prominent tobacco men in Kentucky has expressed a willingness to put up one-half of the capital necessary to build a warehouse. The only thing asked of this community is that the farmers and the people of the town manifest a desire for the market. Now, if we want this industry, let some of our tobacco men and tobacco growers investigate the matter and see that the project is pushed to a consummation.

Edward Moore, of Bromley, Ky., and Thomas Hutchins, of Covington, Ky., well known marine divers, have gone to New Orleans, La., where they have been employed to recover valuables from a steamer which sank in the Mississippi river during a storm last July.

A cylinder of the engine on the steamer J. T. Hatfield, owned by the Hickey Transportation Company of Cincinnati, burst a few miles below Gallopis Tuesday night. Part of the machinery went overboard. The boat and tow were landed. Several of the crew had narrow escapes from flying pieces of the steel cylinder.

Frank J. Stamm, formerly of Ripley and well known in this city, was a heavy loser by the wreck of his schooner off the Florida beach, as the following from the St. Petersburg (Fla.) Independent of December 4, says: "News of the wreck of the snapper schooner Nellie Grant and the loss of two lighters belonging to F. J. Stamm and W. A. Walshingham reached here when Frank J. Stamm, Jr., returned from Boca Grande this morning. Mr. Stamm lost all of his clothes except what he had on the night of the storm. He also lost the launch Snapper, a lighter, several drums of gasoline, tow lines and ropes, \$50 worth of groceries, and stoves and cooking utensils."

There are so many cases like this right here in Maysville that we are publishing this interesting letter with the hope that some of our customers will try Vinol, and get the same happy result that Miss Baer did.

Key West, Fla.—"I am a teacher and became anemic, nervous, run-down, no energy or desire to do anything. I could not sleep and had that languid, nervous feeling that made me a burden to myself. I had taken various tonics without benefit. I heard of Vinol and tried it. Soon I had a good appetite, could sleep all night and it built me up so I have the ambition to do any kind of work." Mary L. Baer, Key West, Fla.

The reason Vinol was so successful in this case is because it is a constitutional remedy that goes to the seat of trouble. The peptonate of iron contained in Vinol enriches and revitalizes the blood, while the strengthening, tissue-building properties of the extractives of cod's livers and beef peptonate aid in building up the tired, run-down system.

## OPEN AIR SCHOOLS

Institutions Where Children Are Treated and Taught At the Same Time.

"Say, teacher, how sick a feller got ter better get in this 'ere open air school!"

This was the greeting to one of the teachers at the Elizabeth McCormick Open Air School in Chicago the other day by a puny little fellow who had been envying the sick kiddies the good time they were having at studying, working, sleeping and playing in the open air.

Open air schools to the number of nearly 500 are now maintained all over the United States. Some of them this winter in the northern states will hold sessions when the thermometer is down to zero or below. Others will enjoy the balmy winds of Southern California, Louisiana or Alabama. The open air school idea is confined mainly to these children who have tuberculosis or who are run down, anemic and likely to contract the disease.

In the open air school movement Red Cross seals have played and are still playing an important part. The seal money, through the Anti-Tuberculosis societies, has been the means for experimenting and convincing the hard headed school boards of the wisdom of the plan and also for providing food, clothing and special nursing care which the public funds could not furnish. Red Cross seals are among the children's truest friends.

These Red Cross seals are on sale in Maysville at the following places: Pecor Drug Company.

M. F. Williams.

J. J. Woods.

Chenoweth Drug Company.

Merz Bros.

D. Hunt.

J. T. Kackley.

De Nuzie.

Maysville Gas Company.

State National Bank.

G. H. Frank & Company.

Barkley Shoe Company.

C. P. Dieterich.

Mrs. Mary Kathryn Truitt, widow of the late S. B. Truitt, of Lewis county, was born January 3, 1835, and died at her home on the Ridge, near Manchester, at the advanced age of 80 years, 11 months and 9 days. She was married to Mr. Truitt on December 16, 1859.

Edward Bryant, of the firm of Bryant & Kirk, Maysville, was here Tuesday and purchased a barrel of alfalfa hay—Bracken Chronicle.

Misses Catherine Scholler and Mary Elsie Stivers, of Ripley, spent several days last week with Dr. and Mrs. J. Allen Doolittle, in this city.

Leslie Griffith, son of Jett Griffith, of near Stokewell, Bracken county, has been appointed town marshal of Mt. Oliver.

At Mt. Olivet last week, Silas Jacobs, of Bracken county, was admitted to the bar to practice law. For several years Mr. Jacobs was one of the county's well known instructors, but for the last year or more has been a rural carrier running out of Foster, where he has given satisfaction to the patrons.

Toys and dolls at Jno. O'Keefe's. 4t

The Young Peoples' Missionary Society of the Second M. E. church, South, will meet with Mrs. H. O. Wood on Houston avenue, Monday evening, December 20. This society has twenty members and has been organized only about three months. Election of officers will be held and Christmas talks will be given. All members are urged to be present.

MRS. T. J. CUREY, President.

**How Are Your EYES?**

Presbyopia or old age sight is a condition which makes its presence felt at about the age of forty. It is an unfortunate and a misunderstood term. People feel that it is not merely a sign of age, but that they are really old. That is not so, however. Sometimes they put off wearing glasses until long past the time when they should have had aid. We advise you to let us test your eyes.

—Leaders in Quality—

116 Sutton Street. Phone 654.

**WHY?**

Why do so many people who sell glasses and can not make them, advise you to wear two pairs of glasses instead of wearing Kryptoks, the invisible double vision lenses?

The Kryptoks cost the man who can not make them about eight times as much as the two pairs would cost him. He can sell the two pairs at the price of the Kryptoks and make an enormous profit. He would make a small profit on the Kryptoks, and if he had to change them he would lose money. See? We make the Kryptoks from the rough blanks and can make money selling at the price the other fellows pay for them. If they need changing we can regrid them.
